

## **STUDENT COUNCIL ELECTIONS : 2025-26**

### **-A REPORT**

*“True leadership lies in elevating others through your influence and ensuring that growth endures even when you’re not around.”*

- Frances Frei

Introducing students to democratic values at a young age is essential for nurturing responsible and active citizenship. Through participatory experiences like school elections, learners begin to understand the principles of representation, fairness, and leadership. With this objective, the **Student Council Elections 2025** were organized at Suncity School, sector 45, to offer students a meaningful platform to engage in democratic practices and develop key leadership skills.

In April 2025, the school successfully conducted the Student Council Elections for students of Grades III and IV, fostering an environment where democratic principles and leadership skills could be actively practiced and developed.

The event was more than just a selection process—it was a hands-on learning experience aimed at nurturing democratic understanding and developing leadership potential in the young learners. The elections followed a

well-planned, three-stage process. It all began on Friday, 4th April 2025, when students were invited to nominate themselves within their classrooms. Open to all students from Grades III and IV, the nomination process encouraged the children to reflect on their abilities in areas such as communication, creativity, reasoning, and decision-making.

Once the candidates were shortlisted, the campaign season was in full swing. Participants enthusiastically designed posters, shared their ideas with peers, and promoted their candidacy across the school. The energy peaked on 7th April 2025 during a dedicated assembly, where each candidate confidently stepped forward to deliver a speech outlining their vision. It was a proud moment to witness such poise and passion from our budding leaders.

The next step brought democracy to life as students of both grades lined up to cast their votes, selecting representatives they believed would best serve their collective interests. The final phase involved an interactive interview session, where each candidate spoke with the Head of School, coordinators and a panel of teachers.

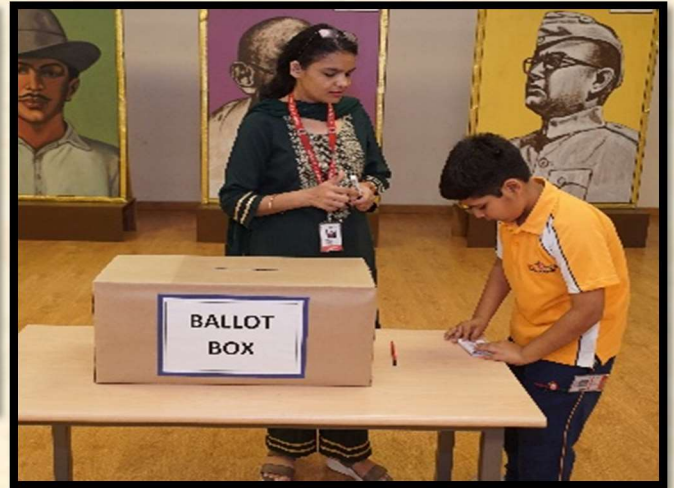

The final list of council members was determined through a balanced evaluation of voting outcomes and interview performance.

More than just electing a student council, this initiative empowered students to find their voice, make thoughtful choices, and understand the significance of responsible leadership. They didn't just participate—they learned what it truly means to lead and represent others.

In every phase—from nominations to interviews—the Student Council Elections stood as a proud example of the school's commitment to building confident, capable, and conscientious individuals.

<b><u>S.NO</u></b>	<b><u>POST</u></b>	<b><u>NAME</u></b>	<b><u>CLASS</u></b>
1.	JUNIOR HEAD BOY	ADHRIT GOEL	IV B
