

## **READING GRAND PRIX PROGRAMME - LEVEL 2**

### **GRADE- II**

Reading enriches the mind and broadens horizons. It introduces new ideas, cultures, and ways of thinking, while enhancing vocabulary and comprehension skills. Through reading, imagination is nurtured, critical thinking is developed, and knowledge is gained that guides life. Truly, reading is the gateway to wisdom and personal growth.

With this vision, the "**Reading Grand Prix- Level 2**" Reading programme was organized for **Grade II** students in the month of August 2025, with the objective of cultivating a love for reading and enhancing literacy skills. The programme comprised daily thirty minute in-class reading sessions, complemented by a curated selection of short stories for home reading, enabling students to advance at their individual pace. Participants exhibited commendable dedication, consistently submitted reading reports, and demonstrated marked improvements in both fluency and comprehension. By the end of the month, many students had gained confidence in engaging with more complex texts and successfully attained their reading goals, thereby establishing a strong foundation for sustained literary development.

**Students were appreciated for their work and certificates of appreciation were given to the following students:**
